

Paint Protection

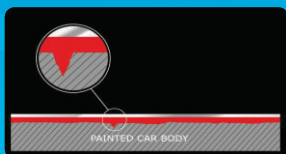

Like no other product, Gtechniq's *Crystal Serum* offers REAL paint protection with revolutionary levels of gloss, durability and chemical resistance. Due to its superior 9H strength, *Crystal Serum* provides a fantastic shield against the build-up of minor swirls and scratches.

Crystal Serum's composite structure delivers the ultimate in ceramic protection, presenting the same slick finish and candy like gloss that you get from the very best carnauba waxes. And best of all it lasts for years – guaranteed!

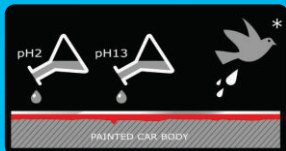

No future polishing or waxing required.

Crystal Serum Paint Protection \$990

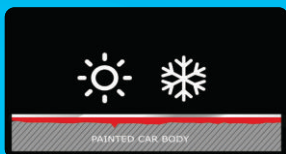

Includes: Bronze Paint Correction Service

The hard 9h top layer offers swirl resistance and a super high gloss finish.

Resists chemicals from pH2 to pH13. Bird droppings and fallout become easy to remove and will not harm your car's clear coat.

Resists heat up to 250°C and offers exceptional UV protection, preventing premature fading.
